MANSIONI

We're looking for the next generation of high-performing, post-graduate people to take our company forward.

The program – Operations track is a development program like no other. Over a two-year period we'll prepare you for a leadership career by putting you at the center of our customer-focused business model. It's fast paced and challenging, but we'll coach and mentor you while broadening your experience through a range of tasks and an impactful social project. The program is split into three main stages of work:

- **18 months** as an account manager or Store Representative. You'll get hands-on experience and a deep insight into the core of our business – our customers, products, services and software.
- **9 months in one of these two roles:**
 - Logistics Trainee: you'll be supporting operational tasks related to product availability and inventory management, ensures appropriate level of stock and enables the organization to meet service level targets while also minimizing cost.

- Local Repair Process Expert Trainee: your key responsibilities will be to analyse and improve existing standards, identify gaps and develop global standards to ensure operational excellence.
- **3 months** on a regional strategic project in our Logistics or After Market Service Departments. This will give you an international perspective of our company
