MANSIONI

We are an online language school with its own language learning application combined with conversation classes. We are looking for passionate web development interns to help us enhance and maintain our digital platforms.

Tasks:

- Develop and maintain our web applications using Symfony, Laravel, and Drupal 11.
- Design and implement responsive UI/UX using Bootstrap 5, PHP, HTML, CSS, and JavaScript.
- Assist in optimizing website performance and security.

Requirements:

- Currently studying Computer Science, Web Development, or similar.
- Must complete a mandatory internship and you can apply for an Erasmus+ internship.

- Proficient in English.
- Profound OOP knowledge and software architecture
- Desire to work in an international and collaborative team environment.

Your values:

- Open-minded with a strong interest in innovative web technologies.
- Detail-oriented and organized.
- Appreciate working in a European international team.
- Passion for web development and continuous learning.
- Enthusiastic about contributing to an educational platform.

Your benefits:

- Perform your internship with modern web technologies.
- Work and live in the heart of the Spanish tech scene in the Lanzadera offices in Valencia (business accelerator connected to EDEM university which supports coLanguage).
- Gain practical experience in an international environment.
- Collaborate with a diverse and multicultural team.

How to apply? Please send your motivation letter and CV to jobs@colanguage.com to apply.
