MANSIONI

YOUR JOB

Join our dynamic team and work closely with the **CFO and the Controlling** department. You will have the unique opportunity to provide essential support in the budgeting process, gaining valuable insights and hands-on experience. In addition to your general support role, you will be entrusted with a specific project that can be completed within a 6-week period.

YOUR TASKS

- **Developing** in collaboration with the controlling and planning departments an optimal plan for specific production machine (extrusion and fitting production).
- **Calculating contribution margins** and specific pricing models for different markets within a specific product portfolio.
- **Estimating potential savings** for specific raw material demands based on production [KK1] [PS2] savings and optimization.
- **Verifying base data** & parameters in the planning process
- **Analyzing stock movements** and determining the optimal stock level for a specific product portfolio based on historical data.

YOU GET

- A unique internship position
- A top salary of at least 1.600 euros (net. p.m./respective equivalent)
- Travel and accommodation costs are covered
- A huge kick-start for your career
