MANSIONI

Key Responsibilities include:

- Collect and clean data from multiple sources to ensure accuracy and completeness.
- Develop and implement data quality checks to maintain reliable datasets.
- Perform statistical analysis on marketing, pricing, sales, trade marketing, logistics, and forecasting data.
- Create insightful visualizations and reports to communicate findings to stakeholders.
- Identify trends, patterns, and outliers in the data to inform business strategies.
- Explore opportunities for predictive modeling to enhance decision-making processes.

The Group, one of the world's leading players in the household appliance sector and mainly active in the coffee and food preparation segment, offers:

- a multinational and stimulating environment;
- exciting growth opportunities;
- a strong work-life balance;

We are looking for a talented Data Analysis Intern that will work closely with our cross-functional teams to extract, analyze, and interpret data from various sources to support key business initiatives. This role offers exposure to diverse datasets and the chance to apply statistical and analytical techniques to solve real-world business challenges. The role will play a crucial role in providing insights that drive informed decision-making in marketing, pricing, sales, trade marketing, logistics, and forecasting.
